SCHOOL REPORT

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Monroe School District:

The total enrollment for the present school year to date is 73, one more than last year. Several pupils have moved away so that the number of pupils in the various schools on February 1 with the name of the teacher is as follows: Pollard, 12 pupils, Hazel M. Towle; The Plain, 20, Marguerite L. Grow; Placey, 18, Mrs. Estelle Hyde Richardson; North Monroe, 15, M. Alice Fountain. Mrs. Richardson is a teacher of long experience and considerable special training, the other three teachers are recent graduates of our New Hampshire normal schools. All the teachers have shown a commendable professional spirit in school and in their contacts with the community.

During the school year of 1926-27 three pupils were neither absent nor tardy—Philip Bedell, John Hall, and Helena Mitchell. The per cent of attendance was 94 and the number of tardinesses 164. This is a very bad record for tardiness. Punctual attendance inculcates the virtues of promptness and dependability upon which depend to a great extent efficient citizenship. The number of tardinesses indicated above shows that parents and pupils are not living up to the rules of the game. Four days were lost because of holidays and teachers' institutes during the year. Many districts are arranging the school term so as to avoid holidays and are contracting for 180 days of

school. This seems a fair proposition in which the teacher gives full service and the community receives what it pays for. Such an arrangement might serve as an object lesson in public thrift.

Ten pupils completed the work of grade eight in June—Madeline Chamberlin, Cleona Chase, Stanley Currier, Una Dickinson, Ruby Gates, Arthur Lang, Norman Lang, Irene Moore, Lawrence Moore, Eugene Sargent. Six of these entered McIndoe Academy and three have now dropped out, leaving eleven tuition pupils at the Academy. Monroe is very fortunate in having available high school privileges so near at hand and it is much to be regretted that all graduates of our eighth grade should not take advantage of this opportunity for further education.

During the summer vacation new desks were placed in the Placey school and the shed painted. This building is now the most attractive in appearance and has the most usable playground. Slate blackboards have been placed in the North Monroe school and some are on hand to be put in the Placey school. The playgrounds at North Monroe and at the Plain were given a good coating of gravel in the fall. Some repairing and painting should be done on the school room at the Plain another year. Other needs will gradually be met. We forget sometimes that environment is an important factor in the educative process, that the tint of the ceiling of the school room, the pictures on the walls, the quality of the light, the neatness and order of the room, the example of the teacher, the contacts in school and out of pupil with pupil, all play an intangible but valuable part in developing in the child those attitudes, habits and ideals which are the basis of good character.

Respectfully submitted,

NORMAN J. PAGE
